

### Terms & Conditions

Variations in color and surface are to be expected when purchasing a hand-finished design. No two pieces will be an exact match.

### No Two Finishes Are Alike

If a pair of any item is ordered, they will be finished by the same artisan. If, after a period of time, a second item is ordered to match, there is no guarantee the second item will match the first exactly.

### Accent Colors

Each bed design is available with gold, silver, or no accents. If your order does not specify an accent color, your bed will be accented as pictured in our current catalog.

### Durable Designs

The joints on every bed design are welded before a decorative hand-poured casting is applied. This reinforces the construction and creates a very durable design. Cracks or crevasses are indicative of hand-poured castings and are representational of antique old world charm. Our beds are manufactured with high strength frames exclusively for use with our beds. All beds are made with 11" frame height unless specified in the catalog or on your order. Our metal designs can be customized to your customers' height preference.

### Design Variations

Dimensions given in the catalog are approximate and may vary somewhat from the actual piece. We reserve the right to make changes in design to improve the product without notice. Designs will vary depending on the size: Twin, Full, Queen, or King. We must adapt each design to the dimensions of the specified size. These designs are not cancel-able and non-refundable.

### Care & Cleaning

Wipe surfaces with a damp cloth and then wipe dry. Water and alcohol spots must be removed quickly. Strong stain removers or solvents are not recommended as they may destroy the furniture finishes.

Each Old Biscayne Finish  
Is The Final Signature  
Of A Unique Original Design.
